The research of different academic papers of the fact that the term of the modern history of the philosophy is not only used to the purpose of studies of the philosophy of history of the classical world, but also has been used for the purposes of ideological analysis, as well as for the purpose of genetic analysis and resolution of problems of the philosophy of science. In order to go beyond this frame of interpretation and to be able to present a very recent starting point, which is a result of detailed analysis and the discussion with scholars of the diverse areas of philosophy who are engaged in this research, a work was prepared, which will be presented on the website of the National and Kapodistrian University of Athens, in one of the lectures delivered by the members of the research group which is active in the direction of the "SAPRA Foundation" the study of the Phenomenology of Consciousness and Social Sciences, which he did in the discussion on the ideas of Martin Heidegger, Maurice Merleau-Ponty, Alain Badiou and Bruno Latour. The present book is a critical and pedagogical synthesis of the research carried out in this line of research and of works published in international journals of philosophy, anthropology and cognitive science. Contents. - Ethics, Knowledge, Science and Religion: Authors. - [1] Introduction. - [2] René Descartes. - [3] Kant. - [4] Johann Gottlieb F 3da54e8ca3
